1 PURPOSE

To ensure safety when working on or in the vicinity of high-voltage systems.

2 SCOPE

Applies to any work on or in the vicinity of high-voltage systems where Skagerak Kraft AS and Statkraft Energi AS have operational management responsibility.

3 RESPONSIBILITIES

The person appointed as Temporary Safety Substitute (TSS) shall comply with the regulations and this requirement.

The person appointed as TSS shall monitor the work site on behalf of the Safety Supervisor (SSHV), when the SSHV has to leave the work site.

The Operations Manager HV is responsible for the preparation and updating of this requirement.

Only the Operations Manager HV has the authority to give deviation permit.

4 PROCEDURE

The appointed TSS shall review, in collaboration with SSHV, all the safety measures that SSHV has seen to being implemented. SSHV shall verbally inform others in the work crew of the appointment.

The person appointed as TSS must have a valid safety card for the high-voltage system. As a main rule, a preapproved SSHV must be used.

The TSS shall stop the work if he/she believes that its progress does not ensure the safety of the work crew.

Only the SSHV may restart work following a stoppage. Lunch breaks at the work site are not considered to be work stoppages.

Requirement	The Statkraft Way	
Open	Temporary Safety Substitute (TSS) - Instruks for overvåker i høyspenningsanlegg	

If the work takes place over several days, the SSHV shall signal the start of work at the beginning of each new working day.

The TSS shall only participate in the work if this is consistent with his/her duties as a TSS.

SSHV decides if TTS can participate in the work.

5 VALIDITY

5.1 Duration, updating and distribution

This requirement applies from the date of approval until it's replaced by a new requirement.
